EXPERIENCE

Software Engineer · Blueflame AI — Jan 2026 – Present

- Led Blueflame's side of the Auth0 identity integration with Grata for a cross-company platform launch: identity model, M2M API, login handoff and provisioning across 4 repos.
- Went from no Auth0 experience to merged auth PRs in ~9 days, then became the primary responder for launch-window identity incidents.
- Traced ~670 duplicate accounts to a retry/timeout race and sized a login loop affecting ~1,900 logins.
- Shipped Datasite VDR sharing on a fail-closed, least-privilege design, with a staged backfill across 142 accounts and ~15K workspaces.
- Built the Blueprints V3 permission layer (groups, ACLs, bulk operations), benchmarked at 10K blueprints.
- Cut a workspace query from 90 ms to 0.8 ms with a targeted index; authored 160 PRs across 9 repos.

Software Engineer, Data Platform · PepsiCo — Jul 2023 – Jan 2026

- Built a self-service Snowflake provisioning platform (Jira, GitHub webhooks, Airflow), cutting turnaround from two days to under an hour.
- Moved 200+ service accounts to RSA key auth with zero downtime, using an MCP audit server and automated key rotation in Terraform and Azure Key Vault.
- As global Terraform SME, built reusable modules for 5 multi-region Snowflake accounts, cutting provisioning time 60% and mentoring 15+ engineers.

Software Engineering Intern, Data Platform · PepsiCo — May 2022 – Aug 2022

- Built pipeline monitoring and alerting in Python and SQL that reduced MTTR by ~40%.

PROJECTS

Snowflake Analytics MCP Server — Python, FastMCP, pandas

- MCP server with 15+ tools for Snowflake cost, security and anomaly analysis, secured with RSA key auth.

Syncify — Spotify & Apple Music APIs, OAuth 2.0

- Playlist migration service with ISRC and fuzzy matching, reaching ~95% track match accuracy.

SKILLS

Languages	Python, SQL
Infrastructure	AWS, Azure, Terraform, Docker, Kubernetes
Data	MongoDB / DocumentDB, Redis, Snowflake, dbt, Airflow
Identity	Auth0, OAuth 2.0 / OIDC, JWT

EDUCATION

New York University · B.A. Mathematics and Computer Science — May 2023
